Comment: As a resident of Hazelwood, I am asking for total removal of the nuclear waste. I have heard the reports of citizens dying from rare cancers and seen the cluster maps and I am appalled that this has been allowed to go on. I want action and total removal comparable to the clean up done in Weldon Spring. Also, I live about 200 yards from Cold Water Creek and want action taken to clean up and protect citizens from further contamination. If this mean buying out and and moving citizens to safer areas, then that is what needs to be done.
